VCM 525MINI

Mini Spindle Counter

The VC-525 MINI high speed desktop banknote counter is the world's smallest vacuum counter, providing simplicity and top level of accuracy at 2300 notes per minute

PERFORMANCE

Maintaining the highest standards in manufacturing has produced a heavy duty COMPACT SPINDLE COUNTER VCM 525 MINI. The VCM 525 MINI counts and processes notes at speeds of up to 2300 notes per minute. Standard features include the adjustable 360° external swivel LED display, air filter system and safety module clamp.

COUNTING MODES

- Check Mode:** verifies a known quantity in a bundle.
- Count Mode:** provides rapid and continuous counting of bundles with varying quantities.
- Add Mode:** several quantities can be totaled and displayed.
- Batch Mode:** provides rapid batching of any number of notes.
- Alarm Checking Mode:** if the count doesn't match the check quantity, the feedplate locks and an alarm sounds to alert the operator of a discrepancy.
